### **Clinic Sofia Adds Maple Grove Location**

*Successful OB Gyn clinic offers a different approach to women's healthcare.*

MINNEAPOLIS — Clinic Sofia, an Edina-based OB-Gyn clinic, announces it has started the build-out phase of its new Maple Grove location set to open June 4 at 15679 Grove Circle North near Maple Grove Hospital. Founded in 2004 by Dr. Donna Block, Clinic Sofia is known for providing nurturing care in a supportive environment and empowering women with information and tools so they can be advocates for their own health.

Clinic Sofia's Maple Grove location will help to meet Clinic Sofia's growing patient base in the west metro. Similar to Clinic Sofia's Edina clinic, the Maple Grove location will feature a comfortable environment with elegant surroundings to welcome patients and an all-women staff dedicated to serving the unique health needs of women at all stages of their life.

"This is an exciting time as we grow our community, expanding our capacity to serve women in the Twin Cities," said Dr. Donna Block, founder of Clinic Sofia. "As a retail and medical hub for the northwest metro, Maple Grove is prime location for our expansion and will provide more convenient access to our services and care for many of our patients."

The Maple Grove office of Clinic Sofia will include seven staff members including Dr. Suja Roberts who has practiced at Clinic Sofia's Edina location for the past year. The clinic's doctors at both locations use Fairview Southdale Hospital and Maple Grove Hospital for labor, delivery and surgical procedures.
